

# SILVERTON SUB-STANDARD GAZETTE

SATURDAY, MARCH 1949

15 CENTS

## SILVERTON GET RADIO BROADCASTER "SPARKS"

By the ace reporter "Scoop" McLean.

It didn't take long for the new radio broadcaster Sparks Hamtrainz to get going with the town's new mobile radio truck. Sparky as the girls down the end of town know him by, was with another girl today to cover the commotion at the edge of Silverton.

Miss Mary had driven her sheep onto the tracks & had caused the locomotive engine driver to apply the brakes in a hurry!

Lucky the ram stood his ground & was not going to move until the flock got over the tracks.

When asked why she had the flock so near the RR tracks she said "The ram was giving me trouble & I couldn't catch him so I thought the cow-catcher on the front of the locomotive might help?"

Awe, you know women drivers they all thin a little different!

Peace returned to this part of town but it sure wasn't elsewhere so it turned out to be a busy day for our friend "Sparks" who looks like doing a pretty good job of interviews on the spot in the new Radio-mobile.
