

## Contest Information

Contest Chairman – Gerry Hopkins MMR FNMRA – [contest@rosehill.org.au](mailto:contest@rosehill.org.au)

Ladies and Gentlemen

You will have received the Convention Flyer last week telling you about the **NMRA Regional Convention in September/October 2023** – a few years since we had the last one. As part of the Convention we hold a Modelling Contest that any/all attending members can enter.

Below is a link to the **Contest Information** page which explains the options and categories available. It also has the entry forms for the models with hints and tips about filling in the forms.

There is also a **Photography Contest** – this will be judged by someone who has won the contest a few times herself – Ruth Garbutt.

All information is on the **NMRA AR - Education** web page - <https://nmra.org.au/contest-information/>

Explanation of the contest rules and categories are on this page. There are also explanations of the forms needed to enter a model in the contest.

There will be a **Rick Shoup Award** for the **Best Model Of An Australasian Prototype**. This model can be a loco, rolling stock or structure. The choice is yours.

There will be a **John Baker Award** for the best **Model Of An American Prototype**. This model can be a loco, rolling stock or structure. The choice is yours.

Additionally, attaining a point score of **87.5 pts. or 70%**, entitles the entrant to a **Merit Award** which counts towards **Master Builder Awards** in the **NMRA Achievement Program**.

If you require any information on the Modelling Contest Contact the **Contest Chairman**.

### Some Previous Entries

**Convention Cars** – The decals for these cars were supply to the member so that they could be used on his own rolling stock – Australian or American.
