On Track to Rosehill

## A4 Diorama

### *Here is a challenge for you!*

Over the next seven weeks plan and create your very own A4 Diorama. This might be a good opportunity to get finished a diorama that is currently 'WIP', or spruce up a diorama you are proud of, and bring it along to **Rails@Rosehill** for entry into the challenge. The winner will be chosen by 'popular vote' during the Convention Dinner on Saturday evening.

#### Here is the brief:

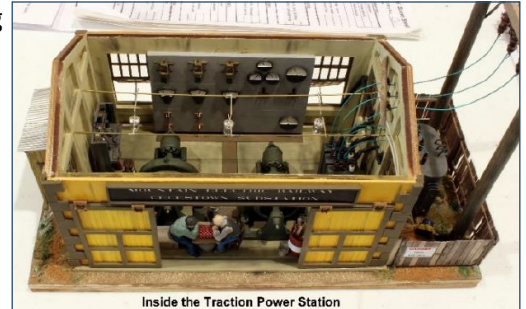

- ⇒ *Footprint size and shape:* the same as an A4 page—that is 297mm x 210mm, either landscape or portrait.
- ⇒ *Height:* that's up to you!
- ⇒ *Must include:* at least one each of: a human, an animal, a structure.
- ⇒ *Must not include:* train/locomotive/rolling stock.
- ⇒ *Could have:* road vehicle, water, movement, light, sound, railway track.
- ⇒ *Could be:* active or passive in nature, something typical of your own layout period, maybe even ultra modern or from 'tomorrow'!

Everyone has a different perspective on what we see in any modelling scene, which is part of the creative opportunity of the modeller. It is not about being the best, it is simply about being proud of *your place* on the journey and showing off what you are up to!

On the right are some examples, and yes, they are 'jolly good'. They are included to show three different ideas to get your ideas revving!

Your A4 Diorama will be on display in the Ballroom prior to the Convention Dinner to enable dinner attendees can cast either vote for the A4 Diorama they like the best. The 'Most Popular Vote' winner will be announced during dinner.

This aspect of the program will be managed by **Arthur Hayes MMR**. Arthur's contact details are: [abchayes@optusnet.com.au](mailto:abchayes@optusnet.com.au) or 07 3345 7887 if you have any questions. Arthur is also presenting three Clinics at RAILS@ROSEHILL.
